Universal Human Values – II (UHV-II)

A Foundation Course in Human Values and Professional Ethics

Module 1 – Introduction to Value Education | Student Activity Worksheet

Session	6	**Lecture**	Lecture 6 (Unit 2)
Topic	Unit 2 · Session 6 — Students will be able to understand the nature of existence, appreciate its interconnectedness		
Name	URVASHI PANDEY	**Reg. No.**	RA2511003010697
Branch / Sec.	C.Tech	**Date**	2026-10-02

Session Learning Outcomes

By the end of this session, the student should be able to:

- Students will be able to understand the nature of existence, appreciate its interconnectedness
- recognize the principle of co-existence as the foundation of harmony at all levels
- Students will develop reflective thinking to observe nature/existence, analyze its inherent interconnectedness

How to Engage with this Session (The Process)

- Whatever is said is a proposal — do not assume it to be true or false.
- Verify it on your own right, on the basis of your natural acceptance.
- It is a dialogue: first between you and the teacher, then within your own self — between what you are and what you really want to be.

Part A — Key Ideas (Recap)

- What is the ultimate aim of understanding existence as co-existence?: To live in harmony with oneself, others, and the entire existence, ensuring peace and sustainability.
- How does right understanding of nature help in sustainable living?: It encourages using resources responsibly without disturbing the balance of ecosystems

Part B — In-Class Activity

Activity 1: Self-Exploration and Natural Acceptance for Session 6

Analyze the core proposal on the basis of natural acceptance and self-verification.

Core Proposal Aspect	Naturally Acceptable? (Yes/No)	Current Practice (Living with it?)
Students will be able to understand the natur...	Yes (Naturally Acceptable)	In Progress / Conscious Effort
recognize the principle of co-existence as th...	Yes (Naturally Acceptable)	Self-Observing Regularly

Personal Observation: When verifying Students will be able to understand the nature of existence, through my natural acceptance, it leads to internal harmony, clarity of purpose, and unconditional fulfillment.

Living in alignment with this understanding eliminates internal contradictions and fosters mutual happiness in all dimensions of life.

Activity 2: Participation in the Order of Society and Nature

Identify concrete steps to translate understanding into conduct and relationship.

Dimension of Living	Commitment & Action Plan
Thought & Imagination	Ensure desires are guided by natural acceptance rather than pre-conditioning.
Behavior & Relationship	Express feelings of trust, respect, and affection unconditionally in daily interactions.
Work & Production	Engage in mutually enriching work with nature, ensuring conservation and sustainability.

Part C — Long-Answer Questions

Q1. What does the Hiware Bazaar practice session show about society, participation and right utilisation?

The Hiware Bazaar practice session shows that society can change when people work together with a common goal, good governance and participation. The village became an example of how individuals can participate in improving society rather than simply blaming the system. The discussion asks us to observe the goal of the village society, the program followed by the people, and the participation of each person. It also helps us reflect on our own family goal, family program and contribution of each member. The session shows that physical facility alone is not enough; right utilisation, responsibility, cooperation and participation are essential. A society based on relationship and co-existence can move toward justice, prosperity and mutual happiness

Q2. What is the ultimate aim of understanding existence as co-existence?

To live in harmony with oneself, others, and the entire existence, ensuring peace and sustainability.

Q3. How does right understanding of nature help in sustainable living?

It encourages using resources responsibly without disturbing the balance of ecosystems
