Session Learning Outcomes

By the end of this session, the student should be able to:

- To enable students to understand the role of human beings in existence
- appreciate the importance of responsible human conduct for harmony and sustainable living.
- Students will be able to reflect on the role of human beings in existence

How to Engage with this Session (The Process)

- Whatever is said is a proposal — do not assume it to be true or false.
- Verify it on your own right, on the basis of your natural acceptance.
- It is a dialogue: first between you and the teacher, then within your own self — between what you are and what you really want to be.

Part A — Key Ideas (Recap)

- How can human beings ensure harmony in existence?: By practicing values like trust, respect, justice, and sustainability in daily life.
- Give an example of responsible human conduct.: Using natural resources wisely without overexploiting them is responsible human conduct.

Part B — In-Class Activity

Activity 1: Self-Exploration and Natural Acceptance for Session 9

Analyze the core proposal on the basis of natural acceptance and self-verification.

Core Proposal Aspect	Naturally Acceptable? (Yes/No)	Current Practice (Living with it?)
To enable students to understand the role of ...	Yes (Naturally Acceptable)	In Progress / Conscious Effort
appreciate the importance of responsible huma...	Yes (Naturally Acceptable)	Self-Observing Regularly

Personal Observation: When verifying To enable students to understand the role of human beings in through my natural acceptance, it leads to internal harmony, clarity of purpose, and unconditional fulfillment.

Living in alignment with this understanding eliminates internal contradictions and fosters mutual happiness in all dimensions of life.

Activity 2: Participation in the Order of Society and Nature

Identify concrete steps to translate understanding into conduct and relationship.

Dimension of Living	Commitment & Action Plan
Thought & Imagination	Ensure desires are guided by natural acceptance rather than pre-conditioning.
Behavior & Relationship	Express feelings of trust, respect, and affection unconditionally in daily interactions.
Work & Production	Engage in mutually enriching work with nature, ensuring conservation and sustainability.

Part C — Long-Answer Questions

Q1. What is the main learning from the Economics of Happiness practice session?

The Economics of Happiness practice session helps us examine the prevailing worldview and its impact on society. The session uses a documentary on the impact of globalisation on Ladakh and asks us to observe the goal of society, the achievements and side effects of the prevalent worldview, and whether there is a solution to present-day problems. The main learning is that development should not be measured only by economic growth, consumption or physical facility. If society focuses only on material growth, it may create side effects such as loss of relationship, cultural breakdown, environmental damage and dissatisfaction. True development must support happiness, prosperity, right relationship, right utilisation and harmony with nature.

Q2. How can human beings ensure harmony in existence?

By practicing values like trust, respect, justice, and sustainability in daily life.

Q3. Give an example of responsible human conduct.

Using natural resources wisely without overexploiting them is responsible human conduct.
