Universal Human Values – II (UHV-II)

A Foundation Course in Human Values and Professional Ethics

Module 1 – Introduction to Value Education | Student Activity Worksheet

Session	2	**Lecture**	Lecture 2 (Unit 4)
Topic	Unit 4 · Session 2 — Students will be able to explain the comprehensive understanding of existence by including the role and place of Nature,		
Name	URVASHI PANDEY	**Reg. No.**	RA2511003010697
Branch / Sec.	C.Tech	**Date**	2026-10-02

Session Learning Outcomes

By the end of this session, the student should be able to:

- Students will be able to explain the comprehensive understanding of existence by including the role and place of Nature,
- demonstrate how this knowledge helps in appreciating interconnectedness, harmony, and sustainable living.
- Students will gain clarity on the comprehensive knowledge of existence by including Nature, recognize the interrelationship between human beings and the natural world

How to Engage with this Session (The Process)

- Whatever is said is a proposal — do not assume it to be true or false.
- Verify it on your own right, on the basis of your natural acceptance.
- It is a dialogue: first between you and the teacher, then within your own self — between what you are and what you really want to be.

Part A — Key Ideas (Recap)

- How does misunderstanding existence lead to problems?: Misunderstanding leads to exploitation of nature, conflicts among humans, and imbalance in ecosystems, creating disharmony.
- What is the role of human beings in existence?: Human beings play a unique role because they have the self (consciousness) and the body, enabling them to understand existence and live in harmony with it.

Part B — In-Class Activity

Activity 1: Self-Exploration and Natural Acceptance for Session 2

Analyze the core proposal on the basis of natural acceptance and self-verification.

Core Proposal Aspect	Naturally Acceptable? (Yes/No)	Current Practice (Living with it?)
Students will be able to explain the comprehe...	Yes (Naturally Acceptable)	In Progress / Conscious Effort
demonstrate how this knowledge helps in appre...	Yes (Naturally Acceptable)	Self-Observing Regularly

Personal Observation: When verifying Students will be able to explain the comprehensive understan through my natural acceptance, it leads to internal harmony, clarity of purpose, and unconditional fulfillment.

Living in alignment with this understanding eliminates internal contradictions and fosters mutual happiness in all dimensions of life.

Activity 2: Participation in the Order of Society and Nature

Identify concrete steps to translate understanding into conduct and relationship.

Dimension of Living	Commitment & Action Plan
Thought & Imagination	Ensure desires are guided by natural acceptance rather than pre-conditioning.
Behavior & Relationship	Express feelings of trust, respect, and affection unconditionally in daily interactions.
Work & Production	Engage in mutually enriching work with nature, ensuring conservation and sustainability.

Part C — Long-Answer Questions

Q1. Explain interconnectedness and mutual fulfilment among the four orders of nature.

The four orders of nature are interconnected because each order is related to and fulfils the other orders. The physical order provides soil, water, air and minerals for the bio order. The bio order provides food, oxygen and nourishment for animals and human beings. The animal order participates in maintaining ecological balance. The human order receives fulfilment from all the other three orders and has the responsibility to understand and preserve them. The first three orders are already self-regulated and definite in conduct. Human beings, however, need right understanding to regulate their conduct. When human beings live with right understanding, they protect the activity, innateness and inheritance of all orders. This leads to mutual fulfilment, prosperity for human beings and preservation of nature.

Q2. How does misunderstanding existence lead to problems?

Misunderstanding leads to exploitation of nature, conflicts among humans, and imbalance in ecosystems, creating disharmony.

Q3. What is the role of human beings in existence?

Human beings play a unique role because they have the self (consciousness) and the body, enabling them to understand existence and live in harmony with it.
