Universal Human Values – II (UHV-II)

A Foundation Course in Human Values and Professional Ethics

Module 1 – Introduction to Value Education | Student Activity Worksheet

Session	3	**Lecture**	Lecture 3 (Unit 4)
Topic	Unit 4 · Session 3 — Students will be able to explain the comprehensive understanding of existence by including the role and place of Nature,		
Name	URVASHI PANDEY	**Reg. No.**	RA2511003010697
Branch / Sec.	C.Tech	**Date**	2026-10-02

Session Learning Outcomes

By the end of this session, the student should be able to:

- Students will be able to explain the comprehensive understanding of existence by including the role and place of Nature,
- demonstrate how this knowledge helps in appreciating interconnectedness, harmony, and sustainable living.
- Students will gain clarity on the comprehensive knowledge of existence by including Nature, recognize the interrelationship between human beings and the natural world

How to Engage with this Session (The Process)

- Whatever is said is a proposal — do not assume it to be true or false.
- Verify it on your own right, on the basis of your natural acceptance.
- It is a dialogue: first between you and the teacher, then within your own self — between what you are and what you really want to be.

Part A — Key Ideas (Recap)

- Give an example of harmony in existence: The water cycle shows harmony in existence—clouds, rain, rivers, and plants all function in balance, supporting life.
- Why is it important for engineers to understand existence comprehensively?: It helps engineers design technologies that are sustainable, ethical, and in harmony with humans, society, and nature.

Part B — In-Class Activity

Activity 1: Self-Exploration and Natural Acceptance for Session 3

Analyze the core proposal on the basis of natural acceptance and self-verification.

Core Proposal Aspect	Naturally Acceptable? (Yes/No)	Current Practice (Living with it?)
Students will be able to explain the comprehe...	Yes (Naturally Acceptable)	In Progress / Conscious Effort
demonstrate how this knowledge helps in appre...	Yes (Naturally Acceptable)	Self-Observing Regularly

Personal Observation: When verifying Students will be able to explain the comprehensive understan through my natural acceptance, it leads to internal harmony, clarity of purpose, and unconditional fulfillment.

Living in alignment with this understanding eliminates internal contradictions and fosters mutual happiness in all dimensions of life.

Activity 2: Participation in the Order of Society and Nature

Identify concrete steps to translate understanding into conduct and relationship.

Dimension of Living	Commitment & Action Plan
Thought & Imagination	Ensure desires are guided by natural acceptance rather than pre-conditioning.
Behavior & Relationship	Express feelings of trust, respect, and affection unconditionally in daily interactions.
Work & Production	Engage in mutually enriching work with nature, ensuring conservation and sustainability.

Part C — Long-Answer Questions

Q1. What is the role of human beings in ensuring mutual fulfilment in nature?

The role of human beings is to understand the inherent harmony in nature and live accordingly. Human beings must facilitate the activity, innateness and inheritance of all four orders. For the physical order, human beings should help maintain its constitution and avoid pollution or destruction. For the bio order, they should protect and enrich growth, seeds, forests and agriculture. For the animal order, they should ensure an environment for the body, food, shelter and breed. For the human order, they should ensure human education-sanskar, right understanding, undivided society and universal human order. Human prosperity should not come by exploiting nature. It should come through right utilisation, protection and enrichment of nature. Thus, the human role is responsible participation for mutual fulfilment.

Q2. Give an example of harmony in existence

The water cycle shows harmony in existence—clouds, rain, rivers, and plants all function in balance, supporting life.

Q3. Why is it important for engineers to understand existence comprehensively?

It helps engineers design technologies that are sustainable, ethical, and in harmony with humans, society, and nature.
